

Livepeer Retro-Active Grant Funding Application - Entry #10

Applicant Information	
Name or Nickname Who is the main point of contact for this application?	Sasi
Contact Email	hidden
Recipients ETH Address Address to where funds will be delivered if the applicant is awarded funds? NOTE: All LPT funds are on the Arbitrum network	0xB89560D7b33ea8d787EaaEfbcE1268f8991Db9E1
Lens Handle (if applicable)	sasicodes
Twitter Handle (if applicable)	sasicodes
Discord Handle (if applicable)	sasicodes
Project Information	
Project Title	Tape
Project Description Please provide a brief overview of your project, its objectives, and how it has benefited the Livepeer ecosystem.	Talk, Amplify, Post, Explore: an open-source media-sharing social platform built on Lens Protocol.
Duration of the Completed Project Specify the period during which the project was active or completed.	2 years
Project Impact Describe the impact your project has had on the Livepeer ecosystem,	We have been using Tape for almost 2 years now. We helped many developers learn more about livepeer and its decentralized transcoding services. The impact is most of the projects on the Lens ecosystem started using livepeer for their

including any measurable results or outcomes.	transcoding of media. Even Lens protocol started integrating it. happy that we started livepeer early and being an example for other products.
Team Members List the team members involved in the project, including their roles and relevant experience.	Sasi - Founder/Maintainer
Technical Details	
Is the project open source?	Yes
GitHub Link: (if applicable)	https://github.com/tapexyz/tape
Technology Stack List the technologies, languages, and frameworks your project is based on.	<ul style="list-style-type: none"> - NextJs - GraphQL - Cloudflare Workers - Solidity <p>It's a mono-repo application that contains, multiple supporting apps and packages for the product.</p>
Explanation of Retroactive Funding Use Explain how the retroactive funding will be used, such as to cover past expenses, support ongoing maintenance, or further enhance the project's impact.	This grant will be used to improve the video experience for the users and cover the transcoding charges in the future.
Community Engagement How have you engaged with the Livepeer community and users during and after the project's completion to promote its benefits and adoption?	Empty
Collaboration Have you collaborated with other Livepeer developers or projects? If so, how?	Tape being the first consumer of the Livepeer ecosystem, has worked with many Lens developers helping them teach about livepeer and its SDK. As an open source project, many developers use our product repo as an example to build on top of livepeer.

Additional Information

Any additional information or details you would like to share with the Retroactive Grant DAO regarding your project or retroactive funding request.

This grant will be used to improve the video experience for the users and cover the transcoding charges in the future.

Supporting Documentation

Please attach any relevant documentation, such as project proposals, technical specifications, or mock-ups, that will help us better understand your project.
