

## Livepeer Retro-Active Grant Funding Application - Entry #3

Applicant Information	
<b>Name or Nickname</b> Who is the main point of contact for this application?	Mike Zupper
<b>Contact Email</b>	hidden
<b>Recipients ETH Address</b> Address to where funds will be delivered if the applicant is awarded funds? NOTE: All LPT funds are on the Arbitrum network	0xd00354656922168815fcd1e51cbddb9e359e3c7f
<b>Lens Handle (if applicable)</b>	@mikezupper
<b>Twitter Handle (if applicable)</b>	@mikezupper
<b>Discord Handle (if applicable)</b>	mikezupper
Project Information	
<b>Project Title</b>	Livepeer Tools
<b>Project Description</b> Please provide a brief overview of your project, its objectives, and how it has benefited the Livepeer ecosystem.	A functional website aggregating Livepeer blockchain data with payout charts, orchestrator details, and tax-ready downloadable data.
<b>Duration of the Completed Project</b> Specify the period during which the project was active or completed.	Approximately 1 year
<b>Project Impact</b> Describe the impact your project has had on the Livepeer ecosystem,	Livepeer Tools has significantly impacted the Livepeer ecosystem, evidenced by measurable outcomes and community engagement:  User Engagement: Attracting 298 active users and garnering over 4000 web views,

including any measurable results or outcomes.

This tool has become a go-to resource for real-time blockchain data.

Recognition by Livepeer: Our charts have been prominently featured in Livepeer's quarterly calls and on their Twitter account, highlighting the value and credibility of our data presentation.

Community Involvement: Several orchestrators have actively engaged with the site, not only utilizing it for their operations but also requesting additional features. This feedback loop has driven continuous improvement and relevance of the tool in the Livepeer ecosystem.

These achievements underscore the project's role in enhancing the usability and understanding of Livepeer data, fostering a more informed and connected community.

**Team Members**

List the team members involved in the project, including their roles and relevant experience.

Mike Zupper

Technical Details

**Is the project open source?**

No

**GitHub Link: (if applicable)**

Empty

**Technology Stack**

List the technologies, languages, and frameworks your project is based on.

Cloudflare Tunnels, Rust programming language, ChartJS, and Docker

**Explanation of Retroactive Funding Use**

Explain how the retroactive funding will be used, such as to cover past expenses, support ongoing maintenance, or further enhance the project's impact.

Continued maintenance, Server hosting, and Future enhancements

**Community Engagement**

How have you engaged with the Livepeer community and users during and after the project's completion to

Actively sharing the link in Discord when appropriate

promote its benefits and adoption?

**Collaboration**

Empty

Have you collaborated with other Livepeer developers or projects? If so, how?

**Additional Information**

I encourage DAO members to browse <https://www.livepeer.tools>

Any additional information or details you would like to share with the Retroactive Grant DAO regarding your project or retroactive funding request.

**Supporting**

**Documentation**

Please attach any relevant documentation, such as project proposals, technical specifications, or mock-ups, that will help us better understand your project.
